

FACTS ABOUT DIGITAL ASSETS

Americans own a combined value of
\$3 trillion
in digital assets today¹

The average American has
OVER 130
online or digital accounts²

One in five
adults has invested in, traded, or used
cryptocurrency³

2.4 million
deceased Americans
have their identity
stolen each year⁴

70%
of people want their online activities
to remain private after their death⁵

PLANNING ACTION STEPS

Inventory your digital
assets

Make a list of all of your
digital assets

Make sure they can be
found when needed

Document your wishes

Decide if you want each
asset to remain private, be
inherited by a loved one, or
made into a memorial
account

Designate a cyber
successor

*Hint: pick someone who is
tech savvy enough that they
will not be overwhelmed by
the task*

Online platforms have differing
policies regarding what happens
when someone passes away or is
no longer able to access the
platform. Moreover, laws regarding
digital estate planning are still
developing.

WHY YOU SHOULD PRIORITIZE PLANNING FOR YOUR DIGITAL FOOTPRINT:

Make it easier for
your family to find
your accounts, user
names, and
passwords

Prevent
identity theft

Avoid unexpected
probate
costs at your
death

Pass on digital
assets to
intended
individuals

Keep secret things
secret (e.g., your
social media direct
messages)
